# School Report.

---

REPORT OF THE SCHOOL BOARD, FOR THE YEAR ENDING FEBRUARY  
15, 1898.

---

The amount of money available for schools, being enough for thirty-three weeks' schooling, the board decided to have a spring and summer term of twelve weeks each, and a winter term of nine weeks.

The spring term, being the last one of the school year, commenced April 12, with the same teachers at each school that taught the preceding one.

Miss Sarah A. Green has had the charge of the North school for the three terms. Miss Green's excellent record and high standing as a teacher has been amply sustained throughout the year.

At the East school, Miss Mary E. Batchelder was the instructor during the spring term; under her tuition, this school was in a very satisfactory condition, the scholars being studious and prompt in their recitations; she resigned her position at the close of the term, for one of greater responsibility to the regret of the board. She was succeeded by Miss Mary L. Palmer, of this town, for the summer and winter terms of the school. Miss Palmer entered upon the duties of teaching with the determination to keep up the good condition of the school, and has succeeded in every respect. She is thorough in her teaching, while the kindness toward the children under her care was plainly shown to all.

The services of Miss Elizabeth E. U. Tyler, as teacher at the West school, have been retained for the eighth successive term. She has spared no pains or effort to make the school a success, and her kindness and sympathy, with the energy and thoroughness of her

teaching, has given the best results, and parents and board are satisfied with her work.

So much sickness prevailed among the scholars of the North and West schools during the winter term, that both were closed for four weeks, including the usual vacation week at Christmas.

Parents are justified in taking their children from school when a question of health is involved, and teachers who are able and conscientious in their work are not responsible under such circumstances should the record of the term be but slightly advanced beyond the preceding one, but the increased interest manifested by the scholars in their studies after the break caused by sickness and storm has placed the schools in a very satisfactory condition.

As the furniture of the North school room will need to be renewed in the near future, only such repairs as were necessary for the time were made there.

The appropriation that was made by the town a few years ago for a bookcase for each school room, in which the books should be placed when not in use, was thought to be small for that purpose, so was not used. We think it would be economy if a suitable place were provided for the books.

A census of the children of the required age in town as made by the board in April, 1897, was 70; 34 boys and 36 girls, as against 49 boys and 43 girls in 1896.

Unless there should be an increase of scholars in town it may imply a larger amount of extra school money; shorter terms of schools, or less pay for teaching. There are many difficulties in the way besides the heavy increase of taxes, which would have to be made, operating against the consolidation of the schools.

JOSIAH D. PRESCOTT,

For the Board.
